

Model: AM-KDTS30-350

1. Introduction

This machine is for magnetizing pre-magnetized small magnets. It is quite efficient.

2. Technical Parameter:

- 2-1 Subject Dimension: pre-magnetized small products
- 2-2 Upload Mode: manually upload
- 2-3 Deload Mode: manually deload after products reaching a certain length
- 2-4 Effective Magnetizing Zone: 20*20*300 (mm)
- 2-5 Cycle Time: ~ 5 s (depends on the magnetizer energy)
- 2-6 Dimension: ~ 1750*500*750 (L*W*H)

3. Procedure

- 3-1 人工将预充磁过的产品整理好放入工作台指定位置，按启动按钮；
- 3-2 滚轮机构把产品夹紧后向线圈推送设定行程，到位后充磁，滚轮机构继续送料产品到线圈，充磁完成的产品被推出线圈；
- 3-3 重复上面的动作，充磁完成的产品到收料机构，在重力作用下自动切料一定时间后人工收料；

4、工作环境：电压 220V、温度 30 度以下、气压大于等于 4KG；
